THREE most attractive lines here—three lines that on account of the care in assembling stock and the close pricing of the goods could well be called specialty lines. We do really feature these goods as specialties in a way—asking far less than what the ordinary store considers a fair margin, and really making the departments a convenience for patrons of this house. You come here to buy the outer wearables you want. It's convenient to be able to supply the details of dress in the same house—and, what's more, you are sure that these details of under wear are of a like high class with the outergarments.

Clean, high-grade, well-cut undermuslins from \$1 a garment up. French and domestic goods. Corsets—both imported and domestic. A fitter here who studies each woman's individual wants and is capable of advising on corsets and fitting them properly. An exceptional line of Hosiery—including many exclusive novelties.

Coal for Ships at Manila.

Bids have been opened at the Navy Department for transporting 25,000 tons of coal from the Atlantic coast to the naval coaling station at Manila. The law provides that the coal shall be shipped in American bottoms unless a fair proposal cannot be secured, when the Secretary may in his discretion award the contract to the lowest bidder. The bids ranged from \$4.19 to \$7.50 a ton, and included bids for 10,000 tons, 15,000 tons, and 25,000 tons. Bids from foreign shippers were many of them lower than those from American shippers. The bids from American shippers were from foreign and American steamers were the same. No award has been made.
